Notes:

1. Live Forms ships with a built-in HSQL database. This database is only supported for evaluation purposes. You must choose another supported database post evaluation.
2. If you are using Oracle12c as your database, upgrade the jdbc driver to [the version 7 ojdbc.jar](#) for the [Insight Data batch process](#) for the [Reporting Feature](#) to function properly.
3. The upgrade to Tomcat v8.5.16 addresses the information disclosure vulnerability.
