We strongly recommend that you always use the latest version of the frevvo data API client libraries.

- To use the latest client library version you also MUST upgrade to the compatible latest Live Forms server version. Make sure you keep the compatible version in sync.
- The Java Client Library is part of the Live Forms In-house download. The library files are located in the `<installdrive>:\frevvo\ext\client` directory.
- The latest version of the Data API .Net Client library can be downloaded by clicking the appropriate version link in the Release Compatibility table

End of Life Policy

frevvo supports major versions for two years after the first GA release date. For some releases, the End of Life Date may be extended. Documentation for Live Forms versions (in red - beginning with v5.1)) that are no longer supported is available on our [frevvo Documentation](#)

Directory. N/A refers to a software release that was deployed to the frevvo Cloud Only. Cloud Only releases are no longer available/supported once they are replaced by subsequent releases.
