

PVE Connector Release Notes

The PaperVision connector is no longer included in the frevvo tomcat bundle.

frevvo PaperVision Connector Version	Live Forms Server Version
v5.5	v7.4.x
v5.4	v7.2+ - v7.3.0+
v5.3	v6.1+

- v5.5.0 (r31253)
- v5.4.0 (r29957)
- v5.3.0

v5.5.0 (r31253)

Cloud: 1/7/2018

In-house: 2/14/18

Version 5.5 of the PVE connector is a bug fix release. It was installed on the frevvo Cloud on 1/7/2018. It is immediately available for in-house customers from our [frevvo Software Downloads Directory](#) . This version of the PVE Connector was certified with Live Forms v7.4+ .

We suggest that in-house customers upgrade to this version to meet the compatibility requirements.

- #21971 - Submissions are not saved to PaperVision

v5.4.0 (r29957)

4/29/2017

Version 5.4 of the PVE connector is included in the v7.2 tomcat bundle. It is a bug fix release. Although Java 7 is no longer supported, version 5.4 will work with Java 7 or Java 8.

Tickets Fixed:

#20785 - Documents column is duplicated in Save to PaperVision or ImageSilo wizard and creates two documents in PVE when submitted.

v5.3.0

Version 5.3 is included in tomcat bundles for Live Forms supported releases prior to v7.2.
